William Loveless Comm.r Commander. 1808.

Friday 18 March 1808	S E	Strong Gales & Cloudy Most of the Day about 2 P.M. saw Shetland hauled in towards it & about 6 Passed by Brassa Island at 8 Hauled by the wind off shore and lat to Day too at 12 Sailed off till 2 & then lay too till 11 Am when we made Sail for Balta Sound where we Anchored at about 8 Am. Struck Top G.all. Masts & put up the Awning one abt the Mizen top Mast & put up one by the Main top G.all. Mast. Barometer 30.16
Saturday 19 March 1808	S b E	Hard Gales & Cloudy all day. About 8 Am. let go the best bower Anchor, tore away almost all of the small bower Cable. It blew so hard we could not get on shore. Barom. 30.13
Sunday 20th March 1808	S by E to S E	Very Hard Gales all day. In the Morning struck the Main top G.all. Mast. Barometer 30.20 Therm. about 36
Monday 21st March	S E	Strong Gales with frequent Showers of Snow Anchored as above. Bar. 30.30 Therm. 38°
Tuesday 22d March	S E	More Moderate with Showers of Snow On Sunday the Sea was so high that it flew over the highest parts of Balta Island at least 2 or 300 feet Bar. 30.53
Wednesday 23d March 1808	E. by S	In the Morning a Moderate breeze. Got the best Bower Anchor & looked at the other found the Cables a little Chafed & Anchored more to the Eastward. Bar. 30.53
Thursday 24 March	Inclinable to Calm	In the forepart a Moderate breeze from the Northward the latter Inclinable to Calm. Barometer 30.56

Today Gen. Walker Esq. & Lieut. Pamflett proceed Sailors in a Sloop for Lerwick.

By two Observations found the Latitude of Balta Sound to be 60° 11′ 11″ Also the Variation of the Compass Observed by a Theodolite to be 27° 8′ W. Came in here, About 2 P.M. the Ringdove Sloop of War Capt.n Swaine but being absent now Commanded by Lieut.t Peake the Anchored near the Kirkal Back.

Dates	Winds	Occurrences
Friday March 25	Inclin. to calm NE to ESE	The fore part little Wind. About 4 PM. weighed Anchor & turned out to near the place where the Kingdove was Anchored a boat came on board us for the Captain who went on board her with the Ships papers as soon as the Ship was brought up. At Sun rise again got under Weigh after Making a board or two Weather Balta Island having Sailed out at the South Entry — At Noon Observed in Latitude 61°.6 N the North End of Shetland bearing SW by Compass distance 14 Miles which makes the Latitude 60°.53 N. being in Longitude 0°.10 W

Bar. 30.16 Therm at 11 PM. 25°.
Sunday 24th April 1808	Incl. to Calm. S W to W and North	The fore part light Airs Inclinable to Calm, got almost all the Lines coiled &c & Boats fitted for the Fishery. The Latter part a fresh breeze which veering to North blew a fresh Gale, & Sailing to the East or N E amongst straggling pieces of heavy & patches of Bay Ice. Supp.d Lat. 75°.30' N Long. 4°.00' E.
Bar. 29.93	Therm. M.d N.t 28°	
Monday 25th of April	North N N W, N W to N E or E.	Strong breezes and very Variable. Sailing by the Wind Larboard tacks till about 5 AM. when falling in with heavy Ice Tacked & continued plying to Windward to the Eastward amongst streams of heavy Ice.
Bar. 29.96	Therm at 4 PM & 10 AM 15°	Supp.d Lat. 76°.15' N Long.e 10° E.
Tuesday 26th of April	E to North Var. or N W b N	Strong breezes and variable with snow the fore & middle part turning or laying too Occasionally, saw 4 or 5 Whale fish throughout this day had 1 or 2 boats away [illegible]. The Latter part plying to the N E or N N W amongst loose heavy Ice.
29.94	Therm at Noon 10°	Supp.d Lat. 76°.20' N Long. 10°.40' E.

Dates	Winds	Occurrences on board in April & May 1808.
Wednesday April 27 Bar 30.26	N.W. by N to E & N E Therm at 4 Pm. 9°	The fore & latter parts fine moderate Weather about 5 Pm. Made fast to a heavy piece of Ice saw a fish had two boats away - saw a great Number of Unicorns. The Middle part Strong Gales with Snow About 10Am. descried Land bearing E N E supposed to be point Look out it is about 50 Miles distance : Lat Obs. 76°..12 N Suppd Long 10° E
Thursday April 28th Bar 30.36 Thermat	N.E. to East 11Am. 12°	Light Airs sometimes nearly Calm Cast off & made Sail to the N.W. amongst loose Ice about 10 Pm made fast again saw 2 or 3 Fish had several boats away. Suppd Lat. 76°..20 N Long 9°..40
Friday April 29th Bar 30.12 Therm	East. 2Am 13°	Light Airs Inclinable to Calm. Several Fish seen had 4 Boats away but Could not get Fast. In the Morning cast off the piece of Ice we were fast too driving towards a closeish patch by a S.E. Swell made Sail too the E. Lat. 76 20 Long 10 E
Saturday April 30th	E to N E ——	The fore part fine clear Moderate Weather about 2 Pm. seeing several fish made a loose fall but Could not come Near enough about 7 Pm. made the Ship fast & set the Watch keeping 2 boats down at 10 Pm. John Dawson struck a fish which taking to windward amongst Sankish Ice got two boats lines out, had 4 Harpoons in her & lost her after all the first harpoon drawing by one & cut the Draw another fastning one harpoon & the other Loose gangs left 5 boats to get the Lines in took the rest to the Ship beginning to blow hard. The Latter part Strong Gales as we could not see the boats (though they Could see the Ship) kept fast for as the piece of Ice we were fast to was driving very Much till about 2 am when beginning to Snow cut the rope Close by where it was fast & began to turn to Windward under Close reefed T. Sails, fore, Mizen Mast, & Main Stay Sails, keeping nearly a stream of where the boats was (which was right up to Windward of us) till about 3 am. when we had the pleasure of finding 3 of them who told us they had left the other two boats getting the last 3 Lines in & that they would come down the same way that they did. Shorten Sail, stood to & fro nearly in the same parallel it was not until past 8 Am that we had the happiness of discovering the other two, being then rather clearer, and (thank God) they were none of them any worse for the Cold except J. Davidson who got a severe Cattarah. The Captain would not allow any of them to go below till they had warmed themselves by running about the decks. Having hoisted all the boats up stood by the wind under two close reefd T. Sails & Fore T. Mast Stay Sail wearing & laying too occasionally amongst streams and loose Ice. Bar. 29.54 Therm. all the latter part about 24°. Suppd Lat. 76°..26 N Long 9°.30
Sunday 1st of May 1808.	N E to E S E Bar. 29.23 Therm. at 4 Pm. 24°	Strong Gales sometimes clear, at others showers of Snow. Sailing to and fro by the Wind under the Close reefed Topsails, amongst streams of Ice & laying too Occasionally. Lat. Indiff. Obs. 76°..17 N Long. Suppd 9°..30 E
Monday May 2d and about Bar. 29.50	E & E S E to South 11 am Therm 28°	The fore part Strong Gales and cloudy with showers of Snow sailing as above : the middle part inclinable to calm with constant snow as the Barometer got did not expect the Gale to abate did not make any more sail. The Latter part clearing up began again to blow very hard but towards noon Moderating a little seeing several fish sent 2 boats John Arkley struck one which we lost. Still kept the boats down Suppd Lat 76..50 N Long. 8°..40 W.

Dates	Winds.	Occurrences in May 1808:
Tuesday May 3d John Arkew No1 – 7f. 4 bone John Hall No2. 9ft. 8 In.	South to SE.	The Fore part fresh breezes and Cloudy, about 2 PM. John Arkew struck another fish which we just killed when John Hall struck one that we also got. made the Ship fast got the Fish alongside and flinched them the former being 7 ft. 4 In & the latter 9 ft. 8 In. bone. As soon as we had done cast off & kept dodging to windw.d under easy sail the rest of the day ~~under easy sail~~ amongst streams & loose Ice. The latter part Fresh or Strong gales with a heavy Scully swell on. Saw two Ships ~~that are now in sight~~.
Bar. 29.40 Therm. at		4 Am. 28° ~~Supp~~ Obd. Lat. 77°. 2' N Supp.d Long. 8°. 40' E.
Wednesday May 4th	S.E. Wm. Harrison  lost her.	The Fore part fresh breezes the Latter little wind or nearly Calm. turning to Windward & Laying too Occasionally amongst loose Ice and Streams. Saw several fish & about 1 PM. Wm. Harrison struck
